PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 5+ years of commercial experience building scalable web applications across frontend and backend, including blockchain-based solutions. Skilled in TypeScript, Node.js, NestJS, React, and Next.js, with experience developing REST and GraphQL APIs, integrating Web3 technologies, search solutions, cryptocurrency wallets, and smart contract interactions. Strong knowledge of relational, NoSQL, and search databases, Docker, and modern software development practices. Focused on writing clean, maintainable code and delivering business-oriented solutions. Previous QA experience provides a strong understanding of software quality and testing processes.

CORE TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES5/ES6+)

Backend: Node.js, Express.js, NestJS, Sequelize ORM, Mongoose ODM

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, Material-UI, Apollo Client

Databases & Search: MongoDB, MySQL, Elasticsearch

Cloud & DevOps: Docker, DigitalOcean

Architecture: Client-Server Architecture, RESTful API Design, GraphQL API Design

Tools & Libraries: Git, Postman, Mongo Compass, Cypress, Wagmi, D3.js

AI Tools: Claude Code, ChatGPT (debugging, code analysis, refactoring, routine code generation)

Languages:

Ukrainian - Native

English - B2

PROFESSIONAL EXPERIENCE

Full-Stack Developer

NeatByte Solutions, Lviv | 03.2025 - 03.2026

Quickly became a key developer on a legacy recruitment platform, maintaining and optimizing the existing React and Express.js application while resolving critical issues and improving performance. Led the migration to NestJS and Next.js, refactored core modules, and integrated Elasticsearch to significantly improve search performance and relevance. Mentored junior developers through code reviews and technical guidance, and developed a new Next.js frontend and administration panel.

SoJobs platform - <https://sojobs.us>

Full-Stack Developer & Co-Founder

Origins dApp, Lviv | 03.2024 - 03.2025

Designed and developed a blockchain-based dApp from concept to production as a co-founder, building the frontend with Next.js, React, TypeScript, and Tailwind CSS. Integrated cryptocurrency wallets and implemented smart contract interactions using Wagmi, and developed interactive data visualizations with D3.js.

Origins dApp - <https://originsdapp.com>

Frontend & Web3 Developer

Startup GetSatoshi, Lviv | 01.2024 - 03.2024

Developed a blockchain-based web application using Next.js, React, TypeScript, and Tailwind CSS. Built responsive pixel-perfect interfaces and integrated cryptocurrency wallets and smart contract interactions using Wagmi.

GetSatoshi - <https://getsatoshi.org>

Full-Stack Developer

Ambisafe, Lviv | 01.2022 - 12.2023

Developed frontend and backend features for a blockchain-based trading platform, implementing new functionality and resolving bugs. Maintained and improved the existing application while contributing to its stability and performance. Participated in migrating the frontend from the company's internal framework to Next.js, helping modernize the codebase and improve maintainability.

Orderbook platform - <https://www.orderbook.io>

AQA Engineer

Ambisafe, Lviv | 04.2021 - 01.2022

Performed manual and automated testing of web and mobile applications. Worked closely with developers, the Project Manager, and the CEO to discuss product requirements and improve software quality. Led two manual QA engineers and prepared detailed bug reports and feature requests in Jira, helping the development team deliver new features and resolve issues efficiently.

AQA Engineer

Inforce, Lviv | 11.2020 - 04.2021

Performed manual and automated testing of web, mobile, and desktop applications. Executed test cases, reported defects, and collaborated with the development team to ensure software quality.

EDUCATION

Bachelor's Degree in Law

Faculty of Economics and Business

The University of Innovative Education | 2016 - 2020

Associate's Degree in Information Systems Automation

College of Informatics and Computer Engineering | 2010 - 2014

COURSES

NestJS - Modern Backend Development

Udemy | 05.2022 - 06.2022

JavaScript - The Complete Guide (V. Minin)

Udemy | 12.2021 - 02.2022

React - Practical Course (V. Minin)

Udemy | 09.2021 - 11.2021
